

Statement of Purpose

Name: {Your Full Name}

University: {University Name}

Course: {Course Name}

Introduction

My name is {Your Full Name} a permanent resident of Bangladesh, passport no – BP093783. I am currently living in Dhaka, the Capital city of Bangladesh. I was born on the 10th January 1982 in Bangladesh. My father's name is {Name} & mother's name is {Name}.

Bangladesh is a promising country and it has been developing in each sector since the 20th century. There are a plethora of public, private & national universities for graduation but it is a matter of surprise that these universities follow traditional methods of teaching till now. Their centre of attention is on theory rather than practical. Now I am looking for a suitable master's degree that is internationally recognized and accepted globally.

Academic Qualification

I am working as {Designation} in {Org Name} since 17th April 2016 to till now. I have worked as {Designation} in {Org Name} from 04 Feb'13 – 15 June'13. I have completed my internship from {Org Name} in 30 Sep'12.

I have completed my MSc in {Course Name} from {University Name} of Bangladesh in 2015 & obtained 3.69 in the scale of 4. Before that I have completed my Bachelor of {Course Name} from {University Name} in 2012 & obtained 3.34 in the scale of 4. I have completed my Higher Secondary certificate (HSC) from Motijheel Ideal School & College in 2006 & obtained 3.7 in the scale of 5. I have completed my Secondary school certificate (SSC) from Motijheel Govt. Girls High School in 2004 & obtained 5 in the scale of 5. Both HSC & SSC was from science group.

Bangladesh is a promising country and it has been developing in each sector since the 20th century. There are a plethora of public, private & national universities for graduation but it is a matter of surprise that these universities follow traditional methods of teaching till now. Their centre of attention is on theory rather than practical.

WHY STUDY IN UK?

I have chosen to pursue my master in UK because of its academic standards, prestigious degree. This education will provide me a solid foundation to boost my potential for having a higher salary and in

finding exactly my job requirements in the area of my interest. Moreover, I can still develop excellent English language and also communication skills which have huge importance in today's global business arena.

I am well aware of its high-quality education, with best world class teaching methods, Renowned and well-respected universities, internationally recognized courses & qualifications, large international student population, scholarships and financial support, strong research infrastructure and the best student support services for international students

Why Master of Science in Pharmacology and Drug Discovery?

As I have already completed my Bachelor & Masters in Pharmacy from Bangladesh so I want to enhance my knowledge in this sector. I think the knowledge & experiences I gathered from here isn't enough for my profession. I need learn a lot to serve this sector. We know it's a vast sector & this sector serve to the medicine so there need a lot of deep knowledge otherwise a small mistake can make a big problem. Another cause is that the courses I read here in Bangladesh aren't same as UK. They provide advanced courses, knowledge & experiences which will help me to enhance my career & get some new opportunities in my profession.

Again we know pharmacy & pharmacology is a related subject but not the same Jennifer Steger, PhD, Nanodropper's Chief Scientific Officer and resident pharmacologist, explains, "Pharmacology, a biological discipline, is essentially described as the study of medications and their impact on living organisms." Pharmacology, according to her, is a highly multidisciplinary field that incorporates biochemistry, biophysics, cellular and molecular biology, endocrinology, and neurology. Pharmacy, on the other hand, is a health-care profession concerned with the practical application of pharmacological principles. A pharmacist fills prescriptions and gives consumers advice on how to utilize them.

So, these two courses are inter related & to prosperous in this field we need to know deeply about both. That's why I have chosen this course to enhance my professional field & build a successful career.

The goal of this master's program is to provide the training and development needed to fulfill the growing need for highly qualified scientists in the global bioscience industry. It can lead to a variety of employment in pharmacology, including academic, commercial, industrial, and healthcare settings. The course was created in response to the growing demand for appropriately professionally trained pharmacologists, which is critical for accelerating the crucial function of interpreting basic laboratory medical research into commercially ready medical biotechnology and drugs that can be used to diagnose and treat patients. The course covers significant biotechnical advancements in pharmacology and drug development, as well as traditional clinical trial design and health-outcomes research. It also covers an emerging field of study known as 'Translational Medicine.'

Why Coventry University?

The university is a multi-award-winning institution. They are dedicated to giving their pupils the greatest experience possible. They continue to invest in their facilities as well as their creative educational

method. Their student's benefits from industry-relevant instruction as well as tools and assistance that will help them achieve. These include everything from a contemporary library and computer lab to specialized career counseling and spectacular Students' Union events. They provide surroundings and services that assist me maximize my ability, in addition to experienced teaching personnel and ongoing investment in their facilities. Their Disruptive Media Learning Lab and experimental learning places will motivate me to think outside of the box. Kids also have writing and math assistance centers, where they may get help with writing tasks and problem solving. They're a global institution, and foreign experiences are a big part of that. * They encourage all of their students to go on their own adventures, whether it's learning a new language, going on field excursions, or working or studying overseas. These international experiences have given me the opportunity to develop crucial talents that will help me stand out from the crowd.

CAREER PLANS:

My aim is to work in an international field. In fact, I am passionate about pharmacy field & it is the most challenging for me. Therefore, I would like to gain a deeper theoretical knowledge and practical skills of it. I am strongly convinced that further education at the Coventry University would satisfy me and give me the needed knowledge. I am really interested in this course because it provides advanced training with several quality courses and seminars on these matters. I believe that UK is the perfect place for studying world-class education, because it has a very high-quality education system, which has a strong international orientation. In addition, UK is one of the strongest economies in the world which for me as a student of Economics is of particular importance. That's why I have decided to place my application for a course here. I believe I can fit perfectly achieving excellent academic results in this course.

I will make effective use of this international master's degree in gaining more skills and knowledge which in turn will help me in getting good job opportunities on my return to my home country.

CONCLUSION:

Studying my {Course Name} and Drug Discovery at {University Name} would give me an opportunity to receive high level education under the guidance of prominent professors. This opportunity will lay the foundation for my career growth and success. I assure you that I will excel to reach the highest of standards. This program at {University Name} would enable me to possess the right combination of knowledge skills and confidence to work towards the attainment of my career goals.

Finally, I take this opportunity to thank you for enabling me to express myself.

Best Regards
